**GOLF INJURIES
A HELPING HAND FROM
TAMWORTH CHIROPRACTIC CLINIC**

Golf seems like a gentle, innocuous sport, yet professional and amateur players lose on average five weeks of playing time a year through injury.

The most commonly injured areas are back followed by the left wrist, elbow and shoulder. Nevertheless, it is also very common to suffer other injuries including knee and foot problems.

Fortunately, the Chiropractors of Tamworth Chiropractic Clinic have postgraduate qualifications in the treatment of such conditions and would welcome the opportunity to discuss your injury with you.

To book a consultation or a free Chiro-check then please contact Tamworth Chiropractic Clinic on 01827 67777.
